

Dear Parents of VHC Summer Campers aged twelve and older:

**As of May 19<sup>th</sup>, 2021 according to the County of Los Angeles, everyone 12 years and older in LA County is now eligible to receive the COVID-19 vaccine.**

The availability of vaccines for our Scout Campers is a recent development. As with many things in this COVID world, we are adapting and reacting to these developments and working to make prudent decisions in a timely manner.

Here's what you should know for Summer Campers aged twelve and older:

- We are asking that Covid Vaccination record be included with Medical Records Form A, B, C for anyone attending our summer camp programs from ages **TWELVE OR OLDER**.
- Should you be unable to procure a vaccination prior to attending one of our camps and are ages **TWELVE OR OLDER**, we will require a clear COVID test done no more than 72 hours prior to the start of camp. A copy of the negative PCR test result must be brought with you to camp for check-in.

A safe and enjoyable summer camp experience for all of our staff as well as all the Scouts who come through our gates is of the utmost importance. Should you have any questions about this policy you can reach us at the contacts below.

We look forward to seeing you in camp this summer!!  
Yours in Summer Camping,

**Peter Basler**
