NYLT is an advanced leadership course with ideas, tools, and techniques that require the ability of the participant to function successfully in a classroom like setting and have the temperament to work well with others. Please briefly speak towards your Scout's motivation, maturity, and ability to understand and process leadership concepts in a learning environment and his/her ability to function in a team environment. Please understand that days start early and end late and are filled with learning modules and activities that will challenge every participant. (Include your comments below).
