Verdugo Hills Council Roundtable Agenda

Thursday, September 8, 2022, 7-8:30 PM Via [Zoom](#)

Safety Moment. [Prohibited Activities](#)

Sometimes you just say “no” to an activity when you “know” the program of the Boy Scouts of America. So, did you “know” there are activities and programs that should NOT be part of any Scouting experience? Or that there are limits for when some activities should be introduced? How you can find out about them and why they are on the “list” are what this safety moment is about.

Hot Topic. [2023 Jamboree](#)

Jamboree is more than a destination. It’s the adventure of lifetime. And there is simply nothing else like it on the planet. Come learn about how your Scout — and you! — can participate in this rare opportunity.

Hot Topic. [Mental Health First Aid](#)

Mental Health First Aid training can help you be better equipped to deal with any crises that may arise. We all understand that (medical) first aid provides help to a sick or injured person until full medical treatment is available, but what do you when someone is experiencing a mental health crisis? It’s essentially the same approach; but you apply Mental Health First Aid.

BREAKOUT SESSIONS

Cub Scouts Leader Breakout: [Scoutbook](#) Richard Briggs & Jay Youn

Welcome to the 21st Century! Scoutbook is an app that lets you track your Scout’s advancement, track logs like service hours, view parent and/or Scout profiles, provide a parent access to your Scout’s accounts, and much more. Come learn how to use this great tool for Scouting. And see the recorded version of this session [here](#).

Scouts BSA Leaders Breakout: [WHAM](#) Pierre Landry

Why Healthy Air Matters Program (WHAM) is the South Coast Air Quality Management District’s program for middle school and high school youth. Originally designed for teachers, the AQMD is reaching out to other youth-serving organization, like Scouting, to see if these resources can be incorporated in their programs. Come learn what the program is all about, and help us decide how Scouting can utilize these rich resources.
